FAMILY HOLOCAUST HISTORY TEMPLATE

Step 1: Write Down Your Questions.

Find step-by-step guidance for each page on the Safekeeping Stories blog.
Start Here: *How to Start Writing Your Family's Holocaust History*

- **NAMES**: Title the page with the family name that will resonate with your kids. Example: *The Greene Family*.
- **PLACES:** Include places tied to birth, home, school, work, community, and wartime experiences.
- **OBJECTS:** Any family object you can experience with your senses. Examples: a recipe, photo, jewelry, music, household item, letter, journal, document, religious item, or something related to a country of origin.
- **EVENTS:** Include life events related to home, family roles & relationships, education, work, war, health, money, celebration & achievement.
- **TIMELINE:** Specific date, month, year, decade, or approximate time tied to a life event. You can use words like "circa," "around," or "during."
- **QUESTIONS:** Be specific and clear when you write your questions. Sometimes questions are part of the story.

Reprint any page if you need more room or want to write about another family member.
